

Iowa Whisky Society – Assets and Measures Report – 07.17.2006

A note on measures:

- All bottles are opened, unless explicitly stated otherwise.
- All measures are approximate.
- “Finger” measures are fingers horizontally across the bottom, not perpendicular with the bottle, and are abbreviated as “fng” (pronounced “effing”).
- The abbreviation for “bottle” is “btl”.
- There may be some bottles whose status is MIA. Bottles Missing in Action are certainly being put to good use, somewhere.
- No malts were harmed in the conduction of this survey.
